Darling Joe: ——

Yesterday was a pretty exciting one — for besides being a busy day for me – it was a regular visiting day as well. One of the girls from college came down to see me, and remained — the dispensary all afternoon, and we went home to gether. Went over to the tea party at Osborn Hall with the head

seeds, which Ty is going to plant for me. If they bloom we'll have a pretty flower garden.

How are your eyes feeling to-day, honeybunch? Still wearing your glasses — and a green shade? too? Sorry I am not there to make you take care of yourself — but some day —.

To-day is beautiful again. Spring has returned. To-morrow is the 12th and the meeting

nurse in charge here, we had a lovely time. Besides this the various doctors and nurses were continually coming in — and everyone seemed in such good spirits — that we were laughing all the time.

The gardener brought in a beautiful fern for me, (he brought in one for Mr. Swallow, too —) which I took home last night. It certainly is a beauty. He promised me some pretty geraniums, too. Besides, he gave me about 18 packages of

of your uncles creditors. Sincerely hope everything will go as you wish and expect it. too. You will write and let me know, want you — and on the 22nd — you will know if you are coming home for the summer.

Here's hopeing you will.

Lovingly
Frances.
